### **Data protection Impact assessments**

A data protection impact assessment (DPIA) is a process to help identify and minimise the data protection risks of a project.

Any circumstances where a DPIA may be required should not be undertaken without the approval of Jennifer Angus.

### **Marketing**

The rules about sending marketing messages mean, in summary, that we should not contact individuals without being satisfied that they do not object to hearing from us and that by contacting them we are not being a nuisance to them.
